WE DO DO IT DIFFERENTLY

As an architect or designer, you know exactly how you want your design to look. Ensuring your project matches your design intent can be another story. ALPOLIC's **beautiful, durable, and safe architectural solutions** can help your vision become reality. Explore new possibilities with our remarkably versatile, endlessly adaptable metal composite materials.

BEAUTIFUL

Our unmatched selection of colors and finishes will ensure a stunning outcome for your project.

- Custom matching capability. Virtually unlimited color palette.
- Die coating provides a smoother finish.
- FEVE paint provides brighter colors. Finishes are available from matte to high-gloss and everything in between.

DURABLE

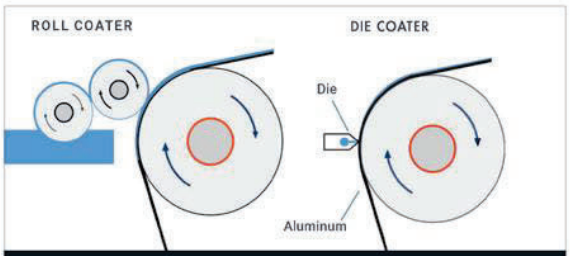

ALPOLIC products are made to last. Your carefully selected color will maintain its appeal for decades.

- AAMA 2605 rating means your colors will resist fading and chalking.
- The finish is inherently graffiti-resistant.
- Our unparalleled Repair and Replace Warranty covers the cost of the current value of the material, the removal of the wall panels, and the fabrication and installation of new ones.

SAFE

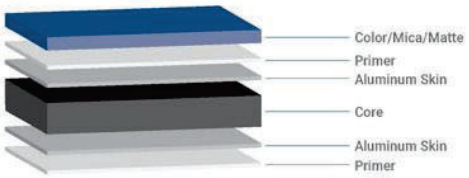

Our standards for performance, specifications, and fire safety will ensure your project is up to code.

- Incorporated into wall assemblies that have passed NFPA 285 in America and S134 in Canada.
- Third-party verification through Intertek.
- **Code compliant, fire-resistant core is available to meet project requirements.**

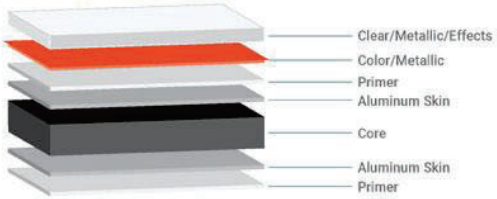

DIE COATING VS. ROLL COATING
Although widely used, roll coaters can achieve adequate quality and efficiency, our advanced die coaters allow percision coating directly on the aluminum surface, ensuring a smoother, finer finishes devoid of roping marks.

2-Coat Solid/Mica/Matte

3-Coat Metallic/Effects

FEVE Resins

100% FEVE
Clear resin
Homogenous Solution
Gloss range 10 – 70
Wide color range
Muted & bright colors
Thermoset

PVDF Resins

70% PVDF + Acrylic
Milky resin
Dispersion solution
Gloss range 6 – 40
Moderate color range
Muted colors only
Thermoplastic
